Maintain Your Partner Status: Skip the Exam!

Did you know that maintaining your certification status can help you save? You can save up to **37%** in potential up-front discounts and back-end payments*, just by preserving your company's current partner level.

Don't know how to recertify? Citrix has recently created a new program, the Citrix Recertification Program, to help make recertification easier. Citrix now offers two options to recertify:
1. Attend the instructor-led training course. By taking a certified instructor-led course, you will not be required to take or pass the exam.
2. Take and pass the exam.

With the Citrix Recertification Program, you can forget the hassle of worrying about a stressful exam, especially during the busy holiday season. Maintain your partner status, learn more about Citrix in an instructor-led class, and prepare yourself to implement Citrix solutions with the Citrix Recertification Program.

For more information about this program and to ensure you don't miss out on the financial benefits of maintaining a partner status, please contact your Arrow representative today.

Don't delay! The Citrix Recertification Program ends on December 31, 2017. Call today to take advantage of this offer.

*Savings are made by preserving your company's current partner level or specialist status.
